Preface

Who this book is for

Describe personas, e.g.

- Bioconductor user
- Galaxy user
- nf-core user
- Bioconductor developer
- Galaxy developer
- nf-core developer
- Data science trainer
- Data steward

What this book is

Describe what this book offers to the personas listed above, e.g.

- Signposting resources
 - Wrapping Bioconductor functionality as Galaxy tools.
 - Wrapping Bioconductor functionality as nf-core modules.
 - Integrating Bioconductor functionality in Galaxy workflows.
 - Integrating Bioconductor functionality in nf-core pipelines.
- Definitions
 - Working definitions of Bioconductor, Galaxy, nf-core, WorkflowHub, and other relevant terms in relation to each other, avoiding jargon and implied knowledge to make the book inclusive and accessible to a wide audience.
- Guidance
 - Suggested roadmap for planning and wrapping Bioconductor functionality in Galaxy tools and workflows, and nf-core modules and pipelines.

1 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

2 Summary

In summary, this book has no content whatsoever.
